7. Recalls that the implementing organization will have to report on progress toward both the objectives and milestones of (as relevant) the Letter of Intent as well as on indicators of CAFI's results framework in accordance with CAFI guidelines and templates. In addition, it will have to provide CAFI with all reports and data (raw and analysed) from household's surveys and other field studies including spatial information (i.e. GPS coordinates) and information on how their activities are addressing and respecting CAFI social and environmental safeguards.

8. Reminds the implementing organization of its reporting obligations under the current CAFI Operations Manual, in terms of both narrative and financial reports.
