PROTECTING FARMS & LIVELIHOODS

1,150

Mobile electric fences installed across 508 villages

18,327

Beneficiaries reached across all nine provinces

2,821 ha

Crops protected from elephant intrusion

92 %

Effectiveness rate of fences

BUILDING LOCAL CAPACITY

All 9

Provinces covered by operational inter-ministerial brigades

400+

Villages reached through awareness & sensitisation campaigns

80+

Government agents trained in deployment, monitoring & conflict management

BEYOND EMERGENCY RESPONSE

Strategy

National communication strategy on human–wildlife coexistence

Agriculture

Sustainable farming interventions in protected areas

Insurance

Mechanism in design to compensate farmers for crop losses

National partner: Ministry of Water and Forests (Gabon), in coordination with the Ministry of Agriculture

Implementing organization: Wildlife Conservation Society (WCS)

Technical partner: Space for Giants

Combining rapid deployment with capacity-building and community engagement — addressing conflict at scale while supporting rural livelihoods and conserving biodiversity.
