\$1.04B

Fund capitalization
— the largest UN
climate fund

9.48M tCO₂

Verified emission reductions
to date, including 5M verified
and paid to Gabon

902,462

Direct beneficiaries
reached

12.45M ha

Under local land-use
plans (8M DRC, 4.55M
Gabon)

54,963 ha

Deforestation avoided
annually at maturity,
DRC

100,096

Deforestation alerts —
18,370 sent to authorities,
508 verified in the field

CUMULATIVE PORTFOLIO RESULTS

GOVERNANCE & LAND USE

606,576 ha
Community forestry secured

125,000+ ha
hectares of land with sustainable agricultural practices (DRC)

2
New laws promulgated land tenure & land-use planning (DRC)

PEOPLE & COMMUNITIES

700,000+
Reached through family planning services

221,000
Improved cookstoves distributed

1,000
Electric fences protecting 2,500 ha from elephants

CLIMATE & BIODIVERSITY

164M tCO₂
Expected reductions over investment lifetime

1,488
Native tree species newly identified (Gabon)

217
Surveillance missions — 200 apprehended, 137 infractions

SCALING FINANCE

\$283M
Pipeline for Payments for Environmental Services

\$51M
Invested by CAFI in the &Green Fund

\$972M
Co-financing mobilised (Cameroon)

10 Donors

6 partner countries
