

## Regional Technical Assistance Facility

**Adopted by email on 18 April 2023**

**EB.2023.05**

Whereas

- Partner governments of CAFI have expressed the need for increased national ownership and for targeted capacity building;
- The CAFI Terms of Reference allows the direct selection of Implementing organizations;
- The CAFI Secretariat undertook an assessment of the potential implementing organizations for the creation of a regional technical assistance facility

The CAFI Executive Board requests UNOPS to approach the CAFI Secretariat and develop a project document to create a regional technical assistance facility as follows:

1. With two windows: (i) technical assistance to milestone implementation, and (ii) targeted and results-focused capacity building to national entities;
2. 3 years renewable;
3. Maximum potential amount to be allocated 10 million US\$ based on needs approved by the project steering committee. This amount will include the costs of operating the regional technical assistance facility and the technical assistance;
4. The facility will be based on needs identified jointly by CAFI and partner governments for the two windows;
5. Submit the project document for approval by the EB by April 30, 2023.
